

Lee Phillips

Education	Ph.D., Dartmouth College, Hanover, NH, 1987: theoretical physics. B.A., Hampshire College, Amherst, MA, 1980: physics, mathematics, music. Diploma, Stuyvesant High School, New York, NY, 1976.
Employment	Freelance writer and consultant, 2011 – present. Chief Scientist, Alogus Research Corporation, 2011 – present. Research Physicist, 1989 – 2011, Naval Research Laboratory, Washington, DC. Postdoctoral Research Associate, 1987 – 1989, Dartmouth College (under Prof. David Montgomery). Teaching Assistant (Physics), Dartmouth College, 1982 – 1987. Teaching Assistant (Math), Hampshire College, 1977 – 1980. Short-term (summer, etc.) jobs, 1970 – 1981: guard, proofreader, bicycle messenger, copy editor, bookkeeper, dishwasher, high school math teacher, community college math teacher.
Experience, Skills, & Awards	Large-scale, parallel simulation of plasmas, fluids, and molecular dynamics. Fluid and MHD theory. Major contributor to multiple grant proposals resulting in funding of large, multi-year physics projects. Analysis and visualization of massive datasets from simulations using Fortran and Scientific Python. Development of novel analytical techniques for studying fluids, magnetohydrodynamics, object tracking, and shocks and detonations in crystals. Linux workstation and server administration. Website programming using Python, Django, and PostgreSQL. Numerous Research Publication Awards and Merit Awards from NRL. Regular presenter at international conferences. Fortran and C on massively parallel supercomputers. Dartmouth Graduate Fellowship. Dartmouth Postdoctoral Research Fellowship.
Service	Member of the Board of Directors of the Friends of Arlington’s Planetarium. Frequent reviewer of submissions to physics journals. Mentor to high school scientists in NRL’s Science and Engineering Apprentice Program. Judge for the Sigma Xi Pure Science Award. Create and host dynamic websites for nonprofit organizations.
